**F.I.S.Co.10
Festival internazionale sullo Spettacolo Contemporaneo - 10th edition
(color cane che scappa)**

Bologna 16>24 april 2010 Italy

|||||

From the 16th to the 24th of april, Xing presents in Bologna the 10th edition of **F.I.S.Co. Festival Internazionale sullo Spettacolo Contemporaneo**, entitled **(color cane che scappa)**=(color of escaping dog).

Held in various locations, F.I.S.Co.10 hosts spectacles as well as **polymorphic experiences of transdisciplinary nature**: not stabilized spaces where dance, performance, vision and critical observation flow together.

The creations invited to F.I.S.Co.10 research the **provisional**, introducing a feisty and illogic dimension, sometimes insolent, sometimes enigmatic, sometimes simply ordinary.

This edition of the festival presents a **fragile athletics**, where artwork and behaviour have the same value. The scene is a space of affections more than of property, the materials indicate forces or symptoms. In the presented works, one often sees the antinomy between planning and spontaneity (project & affection, economy & culture). The costume of freedom and the nature of autodomestication dart in the colorless trace of an escaping dog.

"A dog has no unified vision, nor the sense of what is true or false, nor a memory for history. .. A dog is a being that, when running, tends to become devoid of color, from its physical essence and above all intellectual point of view, reflected in the dialect used to describe someone dressed in colorless clothes, said to be the color of an escaping dog."
(L'accalappiacani #1 - semestrale di letteratura comparata al nulla)
